

Call it Creative – A Way of Working with the Technician on Soviet or Any Technology

By Lisa Semana and
Others

I. Projector

It should follow a
philosophical
consideration, like
sense, or perception
and unfold this – one
might have to see a

projector with the film
or video – just keep
showing it on a screen –
focus with the
calculator is also an
option.

II. Calculator and Radio

Keep talking to the
calculator – it is like a
number, letter machine.

III. Words for Technical Use

Theme and Moves

Moves being discussed
with Althusser

A lot of acting with the machines Louis Althusser says – act with it, make it literary and ask it to express a point and then respond again.
